

All lawyers are not equally gifted; I learned that lesson the *easy* way, by engaging a team of the finest attorneys available: the Richard Harris Law Firm.

My automobile was rear-ended in Palm Springs, California during the summer of 2007; unfortunately for my back, I was sitting in it at the time. Upon returning home to Henderson, NV, I sought out medical treatment. The specialist who treated me recommended that I contact the Richard Harris Law Firm: it was some of the best advice I have ever been given.

The services provided to me by the Richard Harris Law Firm were comprehensive. I was guided through the intricate complications of the legal process in a truly assured and professional manner. I don't think I would ever want to negotiate *against* my attorney in the case, David Boehrer. The figure he settled on with the insurance company in the case wasn't even in the ballpark of what I had anticipated: it had two extra zeroes in it!

I am profoundly grateful to everyone I worked with at the Richard Harris Law Firm. They are, quite simply, the best at what they do.

A handwritten signature in black ink, appearing to read "Jerry Brown". The signature is fluid and cursive, with a large initial "J" and "B".

Jerry Brown
